RESOLUTIONS – 2018 BUDGET PRESENTATION MEETING

The following Resolutions were approved at the Budget presentation meeting held on Tuesday 14 November and are binding on all parents for 2018.

- The School Budget for 2018 as proposed by the SGB and tabled in terms of the South African Schools Act has been approved by the majority of parents present.
- MGPS is a fee paying school and school fees have been determined and levied in accordance with the provisions of Section 38 and 39(1) of the South African Schools Act.

The proposed school fees for 2018 have been approved:

- Grade R : R 26 050.00
- Grade 1 - 3 : R 25 290.00
- Grade 4 - 7 : R 24 810.00

The above school fees are determined in terms of the above Act and are in relation or participations of the pupil in any of the school programme as defined and approved by the parents in Resolution 13.

- All parents shall be obligated to pay school fees in terms of Section 40 of the South African Schools Act unless they have been granted exemption from the payment of school fees. The criteria for the total, partial or conditional exemption of parents, who are unable to pay compulsory school fees, be determined in accordance with the criteria set out in *The Exemption of Parents from School Fees Regulations* (as amended in Government Gazette 39392 of 17 November, 2006).
- A parent's school fee debt (to the extent that he /she has been exempted) is a statutory obligation and thus takes priority over activities not included in our school programme. All monies received by the school will first be allocated to school fees.
- School fee payments have to be kept up to date for children to enroll in any of the activities offered at the school which are not part of the school programme (including Aftercare). Refer to resolution 13.
- Payments:
 - School fees are payable in advance and are due on the first day of school. If any payment is outstanding by the due date, the full outstanding amount of school fees will become due and payable.
 - Full settlement on 31 Jan 2018
 - Full settlement on 28 Feb 2018
 - Fees may be paid in 10 equal payments commencing on 31 Jan 2018 and ending 31 Oct 2018
- Discounts:
 - Fees may be paid in full on/before 31 Jan 2018 in which case a discount of R1 450.00 (6%) will be granted;

- Fees may be paid in full on/before 28 Feb 2018 in which case a discount of R1 230.00 (5%) will be granted.
 - With respect to credit card payments, the aforementioned discounts will be adjusted by 2.3% on the amount payable, to account for the cost of the school processing the payment.
8. The appointment of additional staff, and payments in terms of Section 38A of South African Schools Act, is approved.
 9. Authority to the SGB to write off any unrecoverable, long standing debts is given.
 10. The SGB is authorised to supplement any deficits that arise on budgeted amounts for particular budget items, for surpluses that may arise on other items, provided that the total budget shall not be exceeded without obtaining the approval of a parent meeting.
 11. It is hereby resolved that any surplus from the approved budget (past or future) or budgeted funds that are effectively unused or no longer required for that budget may be used (diverted) on approval of the SGB for capital projects deemed appropriate and minuted to that effect.
 12. The Aftercare Casual D option may only be used for children waiting for an hour or part of an hour for private lessons. This option is only available to those pupils whose names are provided by the private lesson tutor to the Aftercare facilitator. Parents will pay the casual timeslot rate if the period is longer than an hour.

SGB RESPONDS TO PROPOSED AMENDMENTS TO THE BASIC EDUCATION LAWS AMENDMENT BILL (BELA)

The SGB added its voice to those opposed to some of the proposed amendments contained in the Basic Education Laws Amendment Bill (BELA) as they will have adverse effects on the operation of schools country-wide, especially those such as our own school, Manor Gardens Primary. There are five fundamental rights given to SGBs in the South African School's Act (No. 84 of 1996) to make them more democratic which the Education Department now seeks to remove, hence the objection of most South Africans. We are especially worried about the following changes included in the Bill:

Clause 10

The Education Department will have all the power in appointing their preferred candidates in state level 2 - 4 teacher (management) promotion posts and the SGB can only make recommendations for state level 1 teacher posts.

This will in our view have a profound effect on the running of the school if those who know the school best and have the school's best interests at heart, that is, the current parents and staff members represented on the SGB, will not have a say in the appointment of people into leadership roles in the school. Besides Education Department officials being removed from the school and its ethos and needs, they have been captured by the largest teacher union and some have made promotion posts their lucrative business enterprise. The democratic rights of the SGB needs to be strengthened and the ability of the largest teacher union to have a stranglehold and the Education Department to overrule recommendations, weakened.

Clause 3

The Education Department (rather it's HOD) will have the final say in admitting a pupil to the school and approve the school's admission policy and any amendments.

Since we are a public school we do not disagree with the principle underlying this amendment. However, we would not like to see this rule being abused beyond what the school can handle. If this amendment means that the Education Department can force the school to take up progressively increasing numbers of pupils, especially those who cannot pay their fees, the consequences for teaching and learning at the

school would be negative and far-reaching. The school will not be financially viable resulting in the loss of school fee paying parents to private schools and the retrenchment of staff.

In addition, the Education Department does not have the capacity or the funds to employ additional personnel to evaluate the thousands of school admission policies every three years.

Clause 4

The Head of Department will approve a public school's language policy and any amendments.

We believe that this also significantly undermines the democratic rights of a governing body as the Head of Department can overrule the majority language choice. Only Afrikaans schools currently face this dilemma.

In addition, the education department doesn't have the capacity to evaluate the thousands of school language policies every three years.

Clause 11

The Head of Department will identify and centrally procure learning support materials after consultation with the governing body and on the basis of efficient, effective and economic utilisation of public funds or uniform norms and standards.

The school is a progressive one and is not textbook bound so teachers use a variety of resources to draw up integrated theme activities. We do not want to order from the Education Department's restrictive textbook and readers list. However, despite being a section 21 school with a procurement function, we are compelled to order these books or forfeit the Education Department allocation, albeit small, because the books are sold cheaply as their chosen supplier is selling vast quantities of books to all the schools and other book suppliers and other book authors can't compete. We have no opportunity to put forward book titles of a high quality to which the school is accustomed.

In addition, the Education Department has proved that it does not have the capacity to consult with the thousands of school governing bodies regarding their learning support materials and that it is much easier for them to dictate that every school in the country must use a limited number of book titles to the detriment of democracy, choice, private enterprise and competition and quality education.

Clause 22

It will be easier for parents to produce the limited required paperwork to apply for school fee exemptions/remissions.

We are afraid that this will facilitate dishonesty and prevent uncovering the dishonesty of those financially capable parents and those parents claiming to be absent who are not paying their school fees. If this process were to be relaxed, we fear that more parents would stop contributing to the school's funds. This would result in the erosion of the educational services that we can provide, and ultimately the demise of the school in its current form. The Education Department's payment of R179 a child is hardly compensating the school for fees of R 23 000 that the school forfeits through the exemption/remission process. Documentary proof of the inability of parents to pay should be strengthened not weakened.

Clause 6

SGB's must provide an exemption clause for pupils to be exempt from complying with the school's code of conduct, if justifiable.

We do not agree that a pupil should be exempted from a section or the whole of the school's code of conduct as it causes confusion, dissention and non-compliance among the pupils. Instead, if justifiable, the code of conduct must be changed to accommodate and include a pupil's bona fide religious or cultural beliefs, or medical or physical conditions.

Clause 21

A quorum of 15% is necessary for the first election meeting, any general meeting of parents and a changed budget meeting.

We understand that the intention is to increase parent participation but the opposite occurs in reality. A quorum of 15% is very seldom achieved at the first meeting and even fewer parents bother to attend the second compulsory meeting. Thus parent participation actually decreases.

Clause 29

The Minister of Education will make regulations about the payments to state employees (i.e. Section 38A payments)

We are concerned that the Minister will have the authority to make regulations without consultation with school governing bodies. This school has had to pay a few state employees additional money because the Education Department didn't recognize their previous SGB work experience. Consequently, when they changed from SGB to Education Department employment, they were paid according to the entry level's lowest salary notch resulting in fewer earnings. It would be unfair labour practice to reduce this payment now.

Clause 41

Educators have to disclose to the Head of Department their financial interests as well as the financial interests of their spouses and partners.

We think that the disclosure by teachers and their spouses/partners is an unreasonable invasion of privacy and an opportunity for increased theft of their personal details by Education Department officials. The incongruity is that parents applying for school fee exemptions/remissions don't have to disclose their financial interests and yet the teachers and their spouses and partners do.

We hope that Advocate TD Rudman will consider our concerns during the forthcoming consultations that are to be held relating to the BELA, and continue to strive towards increasing democracy and creating the best possible educational environment for quality teaching and learning for our young South Africans.
